

Where Have All The Flowers Gone?

In Term 3, much of our learning will be influenced by the continent of South America. Our Geography lessons in particular will take us on a journey across this beautiful continent, as we look at the physical and human features found in the twelve South American countries.

Music

In music the children will be learning how to perform three chords on the Ukulele!

Science

'Animals and their Habitats' is the name of our science unit. As part of this topic, we will be looking at the life cycles of mammals, amphibians, insects and birds native to South America.

DT

Term 3 is our food unit! Children will be looking at the seasonality of vegetables, taste testing some and using them to make a stir fry.

RE and PSHE

In RE, we are continuing our learning about Christianity and exploring the belief that God is Holy and loving. Our PSHE learning will be focussed on Dreams and Goals and explores the role that careers and money play in our lives.

Reminders:

- We are a Healthy School. Every child should bring a water bottle and wear their P.E.kit each Wednesday for their Dance and PE lessons.
- Please continue to encourage the children with completing their LKL. This consists of a CGP task, MyMaths, TTRockstars, recording their daily reading on Boom Reader and spelling practise. Thank you.

English

We will be using two core texts in Term 3 - The Explorer and The Vanishing Rainforest. As both are set in the Amazon Rainforest, we will use these texts to explore the issue of deforestation and we will be writing both fiction and non fiction texts.

Maths

We will continue our learning in fractions at the beginning of Term 3. Following this we will be returning to multiplication and division, looking at efficient written methods for both operations.
